

Executive Biography

Driving operational excellence, cost reductions, and best in class HSE performance through sustainable management systems deployment and business partnerships.

Scott Ray is an industry leader in Health, Safety and Environmental. Recognized for his business acumen and innovative approach, Scott has a track record in successfully implementing HSE systems that result in fostering a culture of operational excellence. His 20 year Health, Safety and Environmental career includes both technical and leadership experience within diverse industries, most prominent in the energy field with combined cycle natural gas plants, hydro, bio-mass and wind.

Scott is currently the owner and principal consultant of Premier Safety Partners, an international full service safety and health consulting firm. List of energy clients include; Competitive Power Ventures, Apollo Energy, GDF Suez, Ethos Energy, NAES Corporation, Atlantic Power, Calpine Corporation and BMR Energy.

Prior to starting Premier Safety Partners Scott led Atlantic Power as Vice President of EHS and Real Estate from 2012 to 2014. In this role Scott developed a world class sustainable management system framework that resulted in best in class performance and the creation of an engaged corporate safety culture.

Between 2006 and 2012 Scott held various roles at Honeywell International with increasing levels of responsibilities. Scott led a staff of 45 employees in the utilities services business which included project management of roof top solar systems. As a result of his accomplishments in this position, Scott was identified as a “rising star” by the Honeywell Executive Leadership team and his portfolio of responsibilities grew to include other aspects of the business including customer support, business development and organizational development. Scott developed a global HSE Leadership Program in which more than 1,000 employees participated in the first year. Scott’s greatest achievement while at Honeywell was developing and executing on the organizations strategic plan utilizing Honeywell’s Operating System.

Prior to joining Honeywell, Scott’s 12 years with Calpine were marked by consistent advancement from site EHS Coordinator to Regional H&S Manager, and then Construction/Commission Safety Leader. Scott also led several Calpine plants to their first OSHA VPP Star site and served as an OSHA Special Government Employee.

Scott is a veteran of the US Navy, holds a Bachelor of Science degree from SUNY at Saratoga, NY, and is a Certified Safety Professional. Scott frequently speaks at American Society of Safety Engineers (ASSE) conferences, is currently the Secretary of Region 8 ASSE Chapter and is a standing member of the Board Certified Safety Professionals.
