

Bio – Sean Caldwell, Veolia Energy N.A.

Sean Caldwell has a B.S. in Environmental Engineering from Keene State College. He has extensive experience in Construction & Project Engineering. He is currently the Director of Safety, Health & Environmental (SHE) for Veolia Energy for Boston & Cambridge Region.

The Kendall Green Energy Facility located in Cambridge recently underwent a \$30MM renovation to the Cooling System on High Pressure Steam Boilers. The objective of the project was to replace using Charles River cooling water to Air Condensers. The Kendall Facility produces 275KW/hr of electricity and 200 psi steam supply to over 221 facilities (Hotels, Hospitals, Office, and BioTech Co's) located throughout Boston & Cambridge. Sean has 15 years experience in the SHE field for this large Power Utility Company.
