

Bill Howard

Biography

Bill Howard works in the Environmental Department of National Grid as a manager. He started as an Environmental Scientist at National Grid in 2005. Prior to working at National Grid Bill worked at Clean Harbors Environmental Service starting as a chemist in the Braintree, Massachusetts TSDF and working his way to a position in the Rhode Island field services office as an Operation Manager.

Bill graduated from the University of Massachusetts, Dartmouth with an American Chemical Society certified Bachelor's Degree in Chemistry. He is currently certified as a Certified Hazardous Material Manager. His current work involves environmental permitting and compliance for electrical distribution and transmission, natural gas distribution and liquefied natural gas facilities. Currently Bill is supporting the environmental permitting of a natural gas liquefaction involving Federal Energy Regulatory Commission, RI Department of Environmental Management, and RI Coastal Resources Management Council.

Bill currently resides in North Kingstown, Rhode Island
